Subject: Mine claim Ownership - Upper Animas
[Access for Animas Locations March 2014.xlsx](#)

Mike – I am preparing a mailing to obtain consent for access for SW sampling along Cement Creek for this summer. I have been working with the local BLM contact who is familiar with the sampling previous done and she has met with the County Assessor to identify the mine claim ownership for each location. No surprise but many of the sampling locations are along Cement Creek are mine claims owned by Todd Hennis. Richard informed me that not all of Todd's mine claims are in his name – some are in one of his corporations, etc.

Attached is an Excel spreadsheet (use the Hennis Mine Claims tab) listing the locations and the mine claim associated with that location. Can you fill in the ownership name for each mine claim (or have your contractor do it) so that I can get an access agreement sent to Mr. Hennis. I'd like to send it to him by June 20th if possible. Please let me know if this schedule will work for you. Thanks.
